23 May 1952

MEMORANDUM FOR: Mr. [REDACTED], A/DD/P(A)

25X1A9a

SUBJECT: OSO Logistical and Operational Support  
Facilities in [REDACTED]

25X1A6a

REFERENCE: Memorandum for the AD/SO from Chief  
of Plans, DD/P, subject as above, dated  
13 May 1952.

1. Following the PRC Meeting of 12 May 1952, the AD/SO was advised in reference memorandum that the OSO project concerning subject had been rejected and that you had been designated by Mr. Wisner and Mr. Wolf to coordinate and consolidate over-all CIA requirements for a stockpile of material in the [REDACTED] Area. As you undoubtedly realize, the problem of having appropriate stockpiles of material available in strategic locations in the event of hostilities is one of vital importance to SO and the entire Agency.

25X1A6a

2. Recognizing the inevitable time delays in marshalling all factors concerned with an undertaking of this nature and the resultant procurement lead times to acquire the material, it is essential that action to produce this over-all study be commenced at the earliest possible time. OSO requirements are fully set forth in the study presented to the PRC on 12 May 1952.

3. Your early advice and guidance on this problem will be greatly appreciated.
